17 May 2025

We spent the Spring Term designing and building our projects in Code Club:

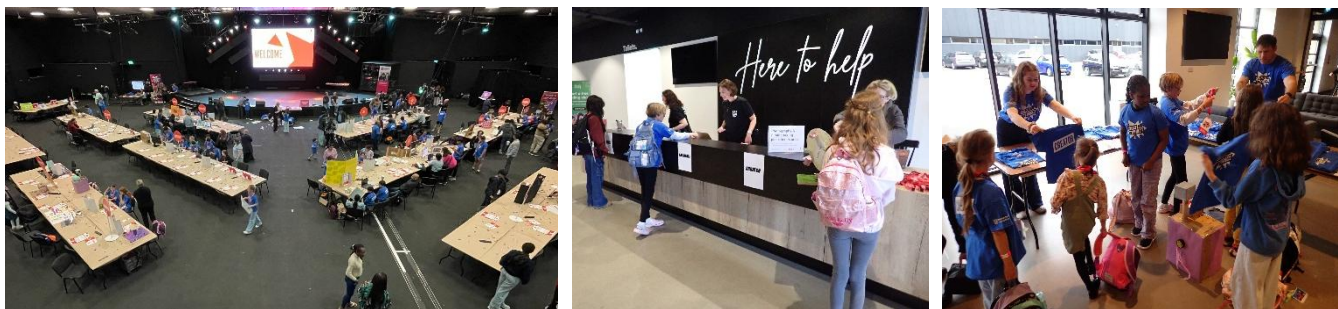

And we had a team photo taken by a professional photographer:

Then we applied to Coolest Projects run by the Raspberry Pi Foundation and applied for a bursary to get us there. Finally the day to go to Coolest Projects Live in Bradford arrived and we left school at 5am!

The Life Centre in Bradford was a great venue. We got checked-in and collected our T-shirts:

Then there was a bit of setting up to do *(last minute repairs, making a poster and getting onto the wifi etc):*

And another team photo:

Once we were set up we could look around at other people's projects *(there were some amazing ones!)* and do some of the other activities, like binary bracelets and VR experiences:

The Judges came round and spoke to us individually about our projects:

Other people came and tried our projects too:

Then there was lunch and the closing ceremony. Everyone got a great swag bag prize and certificate:

Isabelle got a special mention as one of the 'Judges Picks' and some extra goodies for her swag bag:

And then the long journey home again!

Huge thanks go to everyone involved in making this day happen and to the Raspberry Pi Foundation for their generous bursary to cover the cost of transport to the event.

Special thanks go to Rev Karen, Mr Coultart, Mrs Martin and Mrs Hobbs for all their help and support on the day.
